### Background

BlueAlpha Investment Management (Pty) Ltd is a South African based asset manager established in 2003, managing unit trusts and segregated institutional portfolios.

Our primary focus is on equities - both domestic and global. Our investment in quality is founded in our top tier investment team. Our key portfolio managers, each with more than 20 years' experience, have been recognised in the industry with numerous Raging Bull, Morningstar and Hedge Fund awards. Key Individuals of BlueAlpha are Richard Pitt and Gary Quinn.

Section 3A(2)(a) of the General Code of Conduct stipulates that every provider, other than a representative, must adopt, maintain and implement a conflict of interest management policy that complies with the provisions of the Act. The policy is to provide for mechanisms in place at BlueAlpha to identify, mitigate and manage the conflicts of interest to which BlueAlpha is a party. This Conflict of Interest Management Policy is designed as prescribed in the General Code of Conduct for Financial Services Providers and Representatives as amended by Board Notice 58 of 2010 and Board Notice 146 of 2014.

### Objective of the Policy

This Conflict of Interest Management Policy does not change our existing conflict of interest management procedures but intends to document them in a simple form as required by the Financial Services Conduct Authority.

In terms of the Financial Advisory and Intermediary Services Act, 2002, BlueAlpha is required to maintain and operate effective organisational and administrative arrangements with a view to taking all reasonable steps to identify, monitor and manage conflict of interest. BlueAlpha has put in place a policy to safeguard its clients' interests and ensure fair treatment of clients.

All providers, key individuals, representatives, associates and administrative personnel will commit to such policy and the processes will be monitored on an ongoing basis.

BlueAlpha keeps and maintains a register in which all actual or potential conflicts are recorded.

### Mission Statement on Conflict of Interest

BlueAlpha is committed to ensuring that all business is conducted in accordance with good business practice. To this end BlueAlpha conducts business in an ethical and equitable manner and in a way that safeguards the interests of all stakeholders to minimise and manage all real and potential conflicts of interests. Like any financial services provider, BlueAlpha is potentially exposed to conflicts of interest in relation to various activities. However, the protection of our clients' interests is our primary concern and so our policy sets out how:

- we will identify circumstances which may give rise to actual or potential conflicts of interest entailing a material risk of damage to our clients' interests;
- we have established appropriate structures and systems to manage those conflicts; and
- we will maintain systems in an effort to prevent damage to our clients' interests through identified conflict of interest.

## Processes and Internal Controls

### Identification of Conflict of Interest

To adequately manage conflicts of interest we must identify all relevant conflicts timeously. In determining whether there is or may be a conflict of interest to which the policy applies, BlueAlpha considers whether there is a material risk of damage to the client, taking into account whether BlueAlpha or its representative, associate or employee:

- is likely to make a financial gain, or avoid a financial loss, at the expense of the client;
- has an interest in the outcome of a service provided to the client or of a transaction carried out on behalf of the client, which is distinct from the client's interest in that outcome;
- has a financial or other incentive to favour the interest of another client, group of clients or any other third party over the interests of the client;
- receives or will receive from a person other than the client, an inducement in relation to a service provided to the client in the form of monies, goods or services, other than the legislated commission or reasonable fee for that service.

Our policy defines possible conflicts of interest as, inter alia:

- conflicts of interest between BlueAlpha and the client;
- conflicts of interest between our clients if we are acting for different clients and the different interests conflict materially;
- conflicts of interest where associates, product suppliers, distribution channels or any other third party is involved in the rendering of a financial service to a client;
- storing confidential information on clients which, if we would disclose or use, would affect the advice or services provided to clients. We may only receive commissions authorised in terms of applicable legislation.

BlueAlpha maintains an index of potential conflict risks, taking into consideration all business areas and income streams. The index is updated with all new conflicts identified, and to ensure completeness is reviewed on an annual basis. Apart from the register of actual conflict of interests, record must be kept of potential conflict of interest and closely monitored by the KI/assigned staff. All employees, including internal compliance officers and management, are responsible for identifying specific instances of conflict and are required to notify the Key Individual of any conflicts they become aware of. The Key Individual will assess the implications of the conflict and how the conflict should be managed and act impartially to avoid a material risk of harming clients' interests.

### Measurement for avoidance and mitigation of Conflict of Interests

Create awareness and knowledge of applicable stipulations of the General Code of Conduct and relevant legislation relating to conflict of interest, through training and educational material.

Ensure understanding and adoption of conflict of interest policy and management measures by all employees, representatives and associates.

Carry out regular inspections on all commissions, remuneration, fees and financial interests proposed or received in order to avoid non-compliance.

Keep a register of conflicts of interest.

Once a conflict of interest has been identified it needs to be appropriately and adequately managed.

The Key Individual will assess each conflict, including whether the conflict is actual or perceived, what the value of the conflict or exposure is and the potential reputational risk. Compliance and management then agree on the controls that need to be put in place to manage the conflict.

- **Disclosure**

Where there is no other way of managing a conflict, or where the measures in place do not sufficiently protect clients' interests, the conflict must be disclosed to allow clients to make an informed decision on whether to continue using our service in the situation concerned. In all cases, where appropriate and where determinable, the monetary value of non-cash inducements will be disclosed to clients. The Key Individual will ensure transparency and manage conflict of interests.

- **Publication**

We will publish our conflict of interest management policy is available on our website to ensure that it is easily accessible for public inspection at all reasonable times. Our COI policy is available in hard copy in the compliance file and is also stored electronically on the internal cloud storage (Egnyte). A copy will be provided on the client's request.

- **Declining to act**

We may decline to act for a client in cases where we believe the conflict of interest cannot be managed in any other way.

### **Ongoing monitoring of Conflict of Interest Management**

This policy will be reviewed annually and must be included in the FSCA compliance report. The compliance officer is responsible for supervision and monitoring of this policy as well as the process to be followed e.g. inspection of new business transactions, client interviews, discussion with product providers, etc. The key individual or staff member in charge of supervision and monitoring of this policy will regularly monitor and assess all related matters.

### **Training and Staff**

All employees and representatives are required to read Board Notice 58 of 2010 together with Board Notice 146 of 2014 as well as this policy and to sign a statement to the effect that they have done so and fully understand the provisions of all three documents and the application thereof.

Comprehensive training on the Conflict of Interest policy will be provided to all employees and representatives as part of specific and/or general training on the FAIS Act. Training will be incorporated as part of all new appointees' induction and refresher training provided on an annual basis.

The Key Individuals will conduct ad hoc checks on business transactions to ensure the policy has been complied with.

The Compliance Officer will include monitoring of the Conflict of Interest policy as part of his/her general monitoring duties and will report thereon in the annual compliance report.

Non-compliance will be subject to disciplinary procedures in terms of FAIS and employment conditions and can ultimately result in debarment or dismissal as applicable.

Avoidance, limitation or circumvention of this policy via an associate will be deemed non-compliance.

This policy shall be reviewed annually and updated if applicable.

### **Representative Incentives**

We confirm we will not offer any financial interest to our key individuals or representatives for-

- (i) favoring quantity of business over quality of service; or
- (ii) giving preference to a specific product supplier where more than one supplier can be recommended to a client; or
- (iii) giving preference to a specific product of a supplier where more than one product of that supplier can be recommended.
